FOR IMMEDIATE RELEASE

CALTRANS CONTINUES WORK ON DELTA BRIDGES

MARYSVILLE – The California Department of Transportation (Caltrans) is advising motorists to expect delays this summer as work continues on the Steamboat Slough and Paintersville Bridges. Beginning August 1 and continuing through the month of September, motorists can expect intermittent traffic controls and bridge closures from 6 a.m. to 8 p.m., weekly, Tuesdays through Thursdays.

Only one bridge will be closed at a time and detours will be available. Marine traffic will be able to navigate past the closures. All work is scheduled for completion in September.

Caltrans and the CHP urge the motoring public to use caution, be patient and to PLEASE "Slow for the Cone Zone."
